Search Notes

Dear Examiner Shrestha:

Please find attached the results of your search for the above-referenced case. The search was conducted in the template files.

I have listed *potential* references of interest in the first part of the search results. However, please be sure to scan through the entire report. There may be additional references that you might find useful.

If you have any questions about the search, or need a refocus, please do not hesitate to contact me.

Thank you for using the EIC, and we look forward to your next search!

Paul

EIC-Searcher identified "potential references of interest" are selected based upon their apparent relevance to the terms/concepts provided in the examiner's search request.

Original Titles:
Method for providing a visual **display** of
current trading volume and cumulative average trading
volume for preselected time intervals

Original Publication Data by Authority

Argentina

Assignee name & address:
Original Abstracts:
...for displaying market trading volume in selected commodities for
developing a priori knowledge of price <B>trends
from abnormal **trading**
volume comprises a graph including a first set of
sequential markers. Each first marker corresponds to...

...second markers substantially concurrently in time with the corresponding
preselected time intervals and positioning the **second**
markers **on** the graph in proximity to corresponding ones
of the **first markers,**
respectively, each of the
second markers
having an amplitude representative of
the volume of **trades** in **the**
preselected item during the most recent ones of the preselected time
intervals with the difference in amplitude being indicative of
trade volume **deviation** from average
trade volume; **comparing** the amplitude
of the **second markers**
to the amplitude of corresponding
ones of the **first markers**
to determine differences
therebetween; and predicting price movements in the predetermined item from
the amplitude differences between the **first** and
second markers.

JOHANNESBURG (July 19) XINHUA - Dollar buying pushed the South African rand
  to end the day weaker at 6.1530 per U.S. dollar from a previous close of
  6.1440.
XINHUA (COMTEX)
July 19, 1999

JOURNAL CODE: WXIN LANGUAGE: English RECORD TYPE: FULLTEXT
WORD COUNT: 221

Trading on the rand was a bit scrappy Monday with the local
currency leaping from a weaker opening
level of 6.1600 to a firmer level of 6.1420 at midday.
However, late dollar buying saw the rand edging to **close**
lower **once** again the same day.
The dollar buying was largely due to players eyeing the gold price.

Abstract:
   The present invention provides an apparatus and method of determining
 and displaying **trading trends** for
 one or more **currency pairs** wherein
 an opening value and a closing value for the one or more currency pairs
 ...

Summary of the Invention:
   ...The present invention relates to investment software and provides an
 apparatus and method for displaying **trading**
 trends for investments, such as foreign
 currency pairs. Such an apparatus
 and method can be used, for example, to display signals for buying...

...0050] In addition, the present invention extrapolates
 trade trends in a selected foreign
 currency pair and provides the
 investor with current exchange rate information, up-to-the-second
 currency valuations...1702, 1704, 1706 at a time that can be used to
 determine if the specific **currency**
 pair is viable for **trading**. The
 overall **trend** of these **currency**
 pairs is shown for various
 intervals by color coded indicator, such as up (green)
 and down (red) arrows 1708, as well...

Abstract:
    The present invention provides an apparatus and method of determining
    and displaying **trading trends** for
    one or more **currency pairs** wherein
    an opening value and a closing value for the one or more currency pairs
    ...

Summary of the Invention:
    ...market, industry sector or investment. In addition, when investors
    trade the live market without any **trend** indication
    relative to the foreign **currency**
    pair being **traded**, they are not
    trading with the **trend**. The foreign
    currency pair price, therefore,
    will move further against the investor's entry point and thousands of
    dollars...

    ...The present invention relates to investment software and provides an
    apparatus and method for displaying **trading**
    trends for investments, such as foreign
    currency pairs. Such an apparatus
    and method can be used, for example, to display signals for buying...

    ...0010] In addition, the present invention extrapolates
    trade trends in a selected foreign
    currency pair and provides the
    investor with current exchange rate information, up-to-the-second
    currency valuations, trade **trends**,
    trade indicators, fundamental information relative to
    the foreign **currency pairs** and
    active **trade** information. The investor can watch for
    an intersection cross of the trade trends and, guided...

    ...0014] The present invention provides an apparatus for determining and

30

displaying **trading trends** for one
or more **currency pairs** having a
computer and a display. The computer is communicably connected to a
market information...

...0050] In addition, the present invention extrapolates
trade trends in a selected foreign
currency pair and provides the
investor with current exchange rate information, up-to-the-second
currency valuations, trade **trends**,
trade indicators, fundamental information relative to
the foreign **currency pairs** and
active **trade** information. The investor can watch for
an intersection cross of the trade trends ...1702, 1704, 1706 at a time
that can be used to determine if the specific **currency**
pair is viable for **trading**. The
overall **trend** of these **currency**
pairs is shown for various intervals by color coded
indicator, such as up (green) and down...

ABSTRACT

PROBLEM TO BE SOLVED: To provide a device for preventing wrong
exchange in a money **changer**, which
sufficiently prevents a wrong exchange action without complicating a
currency discrimination function.

SOLUTION: The device for preventing wrong **exchange** in a
money   **changer**   A   which   discriminates   thrown-in
currencies C1, C2, and C3 to **start**
money exchange is provided with an abnormal exchange
detection means 30 which outputs an alarm signal...

THE EFFECTS OF KEY CURRENCY COUNTRY **EXCHANGE** RATE
CHANGES ON **TRADE** BALANCE OF CURRENCY
AREA MEMBERS: THEORETICAL ISSUES AND SOME EMPIRICAL EVIDENCE

This study investigates the effects of currency area
exchange rate **changes** on
trade balances of individual members instead of the area
as a whole. A member country's...

...of the area. Adding the characteristics of trade by currency area, the
formula for the **change** in **trade**
balance are derived. From this formula, it is concluded that whether a
member country's...

...will be improved (worsened) as a consequence of area devaluation
(appreciation) depends on the proportionate **change** in
the **exchange** rate, price elasticities of demand for and
supply of imports and exports by **currency** area,
initial patterns of trade by **currency**
area, and the proportionate **change** of imports and
exports within the area to which this country belongs.
      Using the derived...

...elasticities and patterns of trade by currency area significantly
explain the direction of balance of **trade**
change. **Trade** within the dollar area
caused the U.S. trade balance to worsen and reduced the...

Title: Response of counterflow heat **exchangers** to step
   changes of flow rates
Abstract: The response of heat **exchangers** to
   changes of mass flow rates is of interest for control
   of systems containing heat exchangers. The purpose of this note is to
   find the responses of the outlet temperatures of counterflow
   exchangers to step **changes** of
   either or both flow rates. The problem is an initial value problem.

Initially the...
